HEALTHON 2018: Hack 2 Rural Health

26th - 27th July 2018: With an aim to encourage and enable innovations from young entrepreneurs focused on rural healthcare, Indigram Labs Foundation & NASSCOM CoE-IoT, Gurugram co-organised **'HEALTHON 2018:Hack 2 Rural Health',** a Hackathon that would impact the rural healthcare sector on 26th and 27th July 2018. The intention of the competition was to provide innovators with a platform to convert their ideas into a prototypes and potential enterprise in various challenge areas focused on changing the face of rural healthcare.

Sanjeev Malhotra, CEO, NASSCOM CoE - IoT & AI, inaugurated the hackathon and in his opening keynote, stressed on the importance of focussing on rural healthcare and how CoE- IoT & AI is impacting healthcare through its various initiatives like LHIF.

Day 1 started with the idea submission, post which the teams were invited for the 24 hour Hackathon. The teams included Hygieia, Arogyam Medisoft Solution, PamApt, Boomnbuzz, Rigme, BoonBang, Atlamedico, Fedo, MedSamaan & MedBlocks. Here they were subjected to rounds of mentoring and judging by the panel of judges consisting of Healthcare professionals and industry experts.

Day 2 focused on all the teams presenting their prototypes. The top three teams, MedBlocks, MedSaaman and Arogyam Medisoft were awarded a cash prize of INR 50,000, 30,000 & 20,000 respectively.

The valedictory session was graced by Shri Harkesh Mittal, Member Secretary, NSTEDB, Government of India, Dr V.K.Singh, Managing Director, InnovatioCuris and Sushanto Mitra, Founder & CEO, Leads Angels Network.

YES Scale Delhi-NCR Roadshow

17th August 2018: A rapidly growing population has impacted very negatively with consequences of Mobility and traffic jams and an ever-increasing energy deficit with being the major causes. Access to safe drinking water is another key issue with half of the population disconnected from the water distribution network. One of the major sources of livelihood for a majority of the workforce in rural India is Agriculture, which also indicates that most of the agricultural operations are done manually and with minimal automation.

Startups and Innovators working on such challenges sometimes struggle to make their solutions widely available.

Yes Bank partnered with NASSCOM CoE - IoT & AI, through the 'YES SCALE' initiative to scale innovations in key impact sectors of the economy — Smart City, Clean Energy, Agri, Life Sciences and Education by bringing together industry leaders, experts, corporates, government bodies, investors and global ecosystems to provide technology startups for bridging the gap from idea to implementation.

The Delhi-NCR roadshow was held at Gurugram on 17th August 2018, in which the jointly curated startups from the region were invited and had an opportunity to interact with Industry leaders, Investors, and enterprises working in the focus sectors.

4th Inflection Summit & Awards: Digital Manufacturing Supply Chain

12th September 2018: Enabling thought leadership needs the key Industry decision makers to collaborate on a common platform and formulate a framework and action plan. The defined framework encourages the adoption of emerging technologies like AI, IoT & Blockchain that help in addressing key challenges that the Manufacturing sector is facing today.

On 12th September 2018, India's largest Supply Chain, Logistics and Procurement & Technology leaders' conclave - 4th Inflection Summit was co-organised by NASSCOM COE - IoT & AI at Gurugram.

The focus was on the various power panels that highlighted on Unlocking the potential of Digital Transformation of Manufacturing by extensively using digitalization, IoT, AI & Blockchain based technologies. Current challenges & roadmap for digitalization of Supply chain & Logistics as well as Strategies to ensure Information & Data security. The panellists comprised of CXOs from organizations such as Siemens, GE Transportation, Munjal Showa, Baxter, Whirlpool, Airtel, CocaCola, ITC, GSK, Reckitt Benckiser, Thyssen Krupp, CK Birla, EY, Deloitte, Aricent and many more.

The summit concluded with awards in various categories to startups & innovators by eminent industry leaders.
